I am excited to apply for the Community Facility Team Leader position (Job ID 31229) at Whitehorse City Council. With over 30 years of hands-on technical, maintenance, and operational experience, combined with recent leadership in a high-volume production environment and current volunteer general maintenance work at Bennettswood Neighbourhood House. My proven ability to coordinate contractors, supervise staff, prioritise maintenance tasks, and drive continuous improvement directly aligns with the role's focus on delivering quality community services, facility upkeep, and exceptional stakeholder experiences. In my most recent role as Production Technician and Second in Charge at Hickory (May 2023 - December 2024), I effectively led a dedicated zone responsible for constructing complete bathroom pods in a large multi-zone warehouse facility. This included liaising with tiling, plumbing, and electrical contractors alongside factory labourers to meet tight deadlines, troubleshooting multiple issues on the spot, and deciding which repairs I could handle personally, delegate to team members, or schedule post-target. I provided constructive feedback to prevent recurring faults, assigned appropriate tasks to staff, and escalated performance concerns professionally, resulting in improved team dynamics and a significant production uplift. When I joined, the zone struggled to complete 3 pods per day; within three months as second in charge, we regularly achieved 4-6 pods. This success stemmed from strong organisational skills, valuing worker input, and coordination with contractors and office staff. I am confident this experience will translate directly to supervising facility operations, contractor work, minor maintenance, and team performance at Whitehorse City Council. My broader background further strengthens my suitability. As a long-term Repair Technician for Total Tools and RICOH Australia (1999 - 2020), I developed expert diagnostic and hands on maintenance capabilities across mechanical, electrical, and electronic systems. I have extensive experience training small groups of customers on technical operations and workflows, resolving device and configuration issues, and ensuring high standards of safety and presentation. My current volunteer role as Gardener & General Maintenance at Bennettswood Neighbourhood House (May 2026 - present) keeps me actively engaged in facility upkeep, grounds care, and community-focused problem-solving. I am proficient in Microsoft Office, comfortable with administrative systems, purchasing, and record-keeping. I also possess a valid Victorian driver's licence and a strong commitment to OHS, risk management, and positive stakeholder relationships. I am enthusiastic about the opportunity to bring my leadership, maintenance expertise, and community-minded approach to Whitehorse City Council, helping to connect our local community through well-run, safe, and welcoming facilities. I would welcome the chance to discuss how my skills and experience can support the Leisure and Recreation Services team. Thank you for considering my application. I am available at your earliest convenience for an interview and can be reached on: 0434 281 991 or vincennzzo@gmail.com.

Yours sincerely,

Vincent Gagliano
